THE HOFFMANN MFG. CO. LTD., CHELMSFORD, ESSEX

"Safetee" Cartridge Fuses

Weekes' Indicating Cartridge Fuses are available in over 50 types, and those of 2-amp size and over give definite indication when "blown."

The care exercised in manufacture and the quality of materials used, guarantees their—

- Cool running at their rated currents.
- Safe blowing of fuses under overload conditions.
- Uniform and consistent performance.
- Definite safeguard against erroneous replacements.

STANDARD RATINGS
.5-500 Amps up to 600 V.
Higher ratings supplied to order.

Your enquiries for the above and for Switchboards, Switchgear and Watertight Plugs and Sockets are invited.

MYCALEX

(REGD TRADE MARK)

THE SUPREME INSULATOR

Can be machined to fine limits.

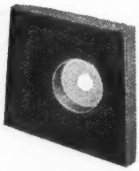
It is unaffected by temperatures up to 400° Centigrade.

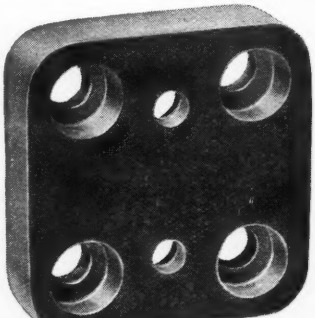
It provides insulation in the face of extremes of climatic and operational conditions.

It is tough and is unaffected by water, gas and oil.

In short—a high-priced insulator of great and almost universal efficiency.

A fine example of milling, from both faces of one-eighth inch ***MYCALEX*** *sheet; the centre diaphragm is only .007 inch thick.*





MYCALEX *sheet, drilled and square-shoulder counter-sunk from both faces.*

MYCALEX LTD.
CIRENCESTER, GLOS.

INSULATE WITH SOLID RUBBER

In applying the rubber tape under tension (after first removing the red protective interleaving cloth) each layer fuses to the other to form one piece of SOLID yet flexible rubber.
A single layer withstands more than 5,000 volts.

From all Electrical Wholesalers & Factors

Manufactured by ***ROTUNDA LIMITED***
Denton, Manchester, England

TAYLOR-METER

UNIVERSAL METER WITH **38** *RANGES*

Sensitivity of instrument is 1,000 ohms per volt on all voltage ranges.

D.C. VOLTS. 7 ranges from 0-0.25 to 1,000 volts.
A.C. VOLTS. 6 ranges from 0-2.5 to 1,000 volts.
OUTPUT. 5 ranges from 0-2.5 to 500 volts.
A.C. & D.C. CURRENT. 5 ranges each, from 0-1 m.a. to 2.5 amps.
RESISTANCE. From 1 ohm to 10 megohms.
DECIBELS. 6 ranges from —22 to + 60 db.
METER. 5 scales. Outer scale is 3½ inches long.
SAFETY SWITCH for meter current is incorporated.

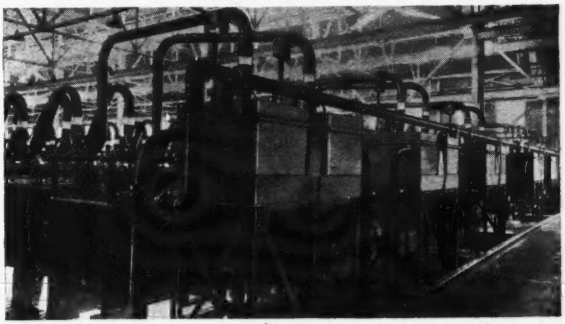
ELECTROLYTIC PLANTS
FOR PURE HYDROGEN PRODUCTION

A method of hydrogen production which is safe, economical and thoroughly dependable is offered by KNOWLES Electrolytic Plants. The plant shown produces 1,400 cubic metres of hydrogen per hour, absorbing 10,000 amps, 650 volts.



THE INTERNATIONAL ELECTROLYTIC PLANT Co. Ltd.
SANDYCROFT, CHESTER K.14

All with interchangeable carriers to take either rewirable fuses or H.R.C. Cartridge Fuses. Immediate change-over to either type of fuse can thus be made on site without disturbance to conduit or wiring. Obviously a most valuable facility.

Urgent requirements for national priority orders can be met from specially maintained stock of this range of switchgear.

SITUATIONS VACANT

BOROUGH OF LUTON ELECTRICITY UNDERTAKING

Substation Attendant

APPLICATIONS are invited for the position of Substation Attendant in the above Undertaking at a salary in accordance with the Joint Industrial Council (No. 9 Area) Schedule, at present £5 3s. per week of 48 hours.

Applicants must have had experience with the operation of a D.C. 3-wire system of supply and the running and maintenance of Rotary Convertors. Preference will be given to those also having had experience with A.C. 3-phase supply.

The appointment is subject to the provisions of the Local Government Superannuation Act, 1937, and the successful candidate will be required to pass a medical examination.

Applications, endorsed "Substation Attendant," stating age, full details of qualifications and experience and accompanied by copies of recent testimonials, to be sent to the undersigned not later than August 10th, 1942:

RENNIE DEAN, M.I.E.E., M.I.Mech.E.,
General Manager and Chief Engineer,
Borough of Luton Electricity Undertaking,
St. Mary's Road,
Luton, Beds.

Canvassing, either directly or indirectly, will disqualify.

W. H. ROBINSON,
Town Clerk.

Town Hall,
Luton, Beds.
July 25th, 1942. 2328

ASSISTANT Accountant wanted, with complete knowledge of book-keeping and the preparation of accounts. Experience of electricity accounts would be a recommendation. Able to deal with correspondence and control staff. Salary £300 to 350 p.a., according to qualifications.—The Lothians Electric Power Co., 53, Melville Street, Edinburgh, 3. 8042

CLERICAL Assistant required in stores office. Must have a good knowledge of electrical material as handled by wholesalers. Apply—London Electrical Company, 92, Blackfriars Road, S.E.1. 33

THE ISLE OF MAN ELECTRICITY BOARD

Appointment of Engineer and Secretary

APPLICATIONS are invited for the above appointment from suitable candidates.

Applicants must have technical, administrative and commercial experience in the distribution and sale of electricity in an undertaking which has an extensive overhead High Tension and Low Tension Distribution system.

The appointment is subject to the provisions of the Isle of Man Boards of Tynwald Superannuation Act, and the successful candidate will be required to pass a medical examination.

The salary to be paid will be £650 per annum, rising by £10 annual increments to £700 per annum.

Applications, stating age, details of experience and qualifications, together with copies of not more than three recent testimonials, should be endorsed "Appointment of Engineer and Secretary" and addressed to the undersigned, and must be received not later than August 17th, 1942.

Canvassing, directly or indirectly, will disqualify.

BOROUGH OF CREWE

Electricity Department

Appointment of Accountancy and Statistical Officer

APPLICATIONS for the above appointment are invited from persons having a good experience of the commercial work of an Electricity Supply Undertaking, including the supervision of clerical and mechanised accountancy work, for which membership of an appropriate professional association will be a recommendation.

The salary will be the maximum of the present Council scale, £366 6s. per annum, including war bonus (at present £33 16s.). A Whitley Council grading scheme is at present under consideration by the Council.

The appointment will be subject to the provisions of the Local Government Superannuation Act, 1937, and the selected candidate will be required to pass a medical examination.

Applications, stating age, education, qualifications and experience, together with copies of testimonials, should reach the Borough Electrical Engineer, Electricity Street, Crewe, not later than Saturday, August 1st, 1942.

K. B. EDWARDS,
Town Clerk.

Municipal Buildings,
Crewe.
17th July, 1942. 2307

COUNTY BOROUGH OF WEST HARTLEPOOL ELECTRICITY DEPARTMENT

Appointment of Commercial Assistant

APPLICATIONS are invited for the position of Commercial Assistant at a salary of £350 per annum, rising by two annual increments of £12 10s. to £375 per annum. The successful applicant will also be entitled to the Council's Cost of Living Bonus, at present amounting to 10s. per week.

Candidates must not be over 45 years of age, and must have a thorough accountancy and commercial experience in the distribution and sale of electricity, and a knowledge of the Acts, Regulations, Emergency Statutes and Orders affecting the Electricity Supply Industry, Consumers Agreements, Tariffs, Loan Sanctions, Stores, etc., and must be able to control office staff.

The successful candidate will be required to pass a medical examination.

Applications stating age and full details of experience and qualifications, together with copies of not more than three testimonials, should be addressed to me endorsed "Commercial Assistant" and should be received not later than Saturday, the 15th of August, 1942.

Applicants should state whether, in the present emergency, consent will be granted to their release.

Canvassing either directly or indirectly will be a disqualification.

HAROLD W. STANTON,
Town Clerk.

Municipal Buildings,
West Hartlepool.
24th July, 1942. 2323

WEST MIDLANDS JOINT ELECTRICITY AUTHORITY

Appointment of Assistant Chemist

THE above-named Authority invite applications for the position of Assistant Chemist (male or female) at a salary of £5 a week. The post will be designated under the Local Government Superannuation Act, 1937, and the successful candidate will have to pass a medical examination.

Candidates must have had a good general education and possess a sound knowledge of chemistry, preferably to the standard of the B.Sc. degree in Pure Science of the London University.

Applications, stating age, education, experience and present occupation, accompanied by copies of three recent testimonials, and endorsed "Assistant Chemist," should reach the undersigned not later than August 14th, 1942.

Canvassing, either directly or indirectly, will disqualify.

H. F. CARPENTER,
Clerk and Manager.

Phœnix Buildings,
Dudley Road,
Wolverhampton.
July 24th, 1942. 2333

COMPETENT person required to take charge of a small branch works of a Mica Manufacturing Company in Lancashire. One with experience of Mica work preferred, but not absolutely essential. Only persons capable of controlling labour and possessing initiative should apply. State age, salary and experience. Apply—H. Clarke & Co. (Manchester) Limited, Atlas Works, Patricroft, Manchester. 2326

FOREMAN required, with experience of electrical instruments in works at present engaged on government contracts. Position is a permanent one with good post-war prospects. Full details including age, salary required, and date when free should be sent to—Box 8045, c/o The Electrical Review.

ARTICLES WANTED

HOUSE TRANSFORMERS

HOUSE Transformers, 200/250 volts to 50 volts, 25 amps., or higher, secondary circuit, wanted for work of national importance. Write—U.T.C., 13, Deptford Bridge, S.E.8. 8044

MASSAGE Machine wanted, electric, 230 volts, 50 cycles, A.C., floor or wall fixing, complete with belt etc., new or re-conditioned machine. Forward particulars to—Box 2335, c/o The Electrical Review.

ONE 7/10-kW, 100- or 200-volt Dynamo, complete with oil engine (or gas engine and producer), storage batteries and panel.—Arco, 55, Hatton Garden, London, E.C.1. 8031

WANTED, Generating Set, either 400 volt, 3-phase, or 460 volt D.C., between 30 and 40 kW.—Box 2330, c/o The Electrical Review.

WANTED, Rotary Converters, any size.—Universal, 221, City Road, London, E.C.1. 22

WANTED, single-phase Alternators, 250 volt, 50 cycles up to 5 kVA, with or without exciters.—Fyfe, Wilson & Co., Ltd., Station Works, Bishop's Stortford. 2338

WORK WANTED AND OFFERED

ARMATURE Winding a speciality.—Kingsland Electric Service, 111, Clarence Road, E.5. AMH. 4166. 8043

FRACTIONAL H.P. Motor Repairs. Electric Tools, Vacuum Cleaners, Hair Dryers, etc., repaired, rewound and rebuilt by experts.—Walter Crane, Electrical Engineer, Greencoat House, Westgate, Wakefield. 8013

MARKING and Printing Components in Bakelite, Glass, Wood, anodised or painted metal; large or small quantities quoted for. Radio, telephone, aircraft parts a speciality.—Rejafix, Ltd., 75, Baker Street, W.1. 38

REPAIRS to Stop-Watches, Chronographs, Comparator Gauges, Time-Measuring Instruments, etc. First-class workmanship only, under highest technical supervision.—Arthur Saunders & Co., Watchmakers (Tel. Hol. 0407), 5, Southampton Row, London, W.C.1. 42

WORK wanted. Electrical Engineering and Contracting, also inside assembly work and repairs, in Midlands.—Box 2329, c/o The Electrical Review.

MISCELLANEOUS

FOR the most up-to-date method of marking components use the Rejafix machines, as supplied to various Government Departments and most leading electrical, radio, telephone manufacturers. Send for details. Orders for marking and printing components in various materials also given urgent attention. Promptly executed.—Rejafix, Ltd., 75, Baker Street, W.1. 41

LESLIE Dixon & Co.; and Electradix Radios. New address: 19, Broughton Street, Queenstown Road, Battersea, S.W.8. Telephone, Macaulay 2159. Nearest Rly. Sta.: Queen's Road, Battersea (S.R.). 18

WORKS Canteens operating or opening. Employers are advised to apply for assistance (without charge) if in any difficulty or if existing arrangements are not satisfactory to—Works (Caterers) Co., 28, Austin Friars, London, E.C.2. 2313

AGENCIES

MANUFACTURERS' Agents, covering the whole of Great Britain and Colonies, are desirous of contacting manufacturers with a view to sole selling rights (either commission or buying), post-war arrangements considered. —Box 23, c/o The Electrical Review.

EDUCATIONAL NOTICES

LATEST A.M.I.E.E. RESULTS

IN the recent Examinations held by the Institution of Electrical Engineers 416 Candidates sat who had taken B.I.E.T. Courses. Of these 397 were successful in passing the examinations. We believe this record of 397 successes out of 416 entrants has never before been approached by any oral or correspondence tutorial organisation, and indicates the very high efficiency of the modern system of Technical Training which we have laid down.

The B.I.E.T. tutorial organisation is waiting to assist you either with a short specialised course or complete training for a recognised examination.

We have available a large full-time staff of instructors, while the efficiency of our extensive organisation is a byword among engineers.

WE GUARANTEE—"NO PASS—NO FEE"

May we send a copy of "ENGINEERING OPPORTUNITIES"? Containing a great deal of useful advice and detailed information on over 200 Home-Study Courses and examinations, this handbook is of very real value to the ambitious engineer. For full details of Electrical Courses send 2½d. stamp for our enlightening handbook and subsequent matter (post free).

BRITISH INSTITUTE OF ENGINEERING TECHNOLOGY

Established 1927—over 140,000 students.

12, Shakespeare House, 17, 18 & 19, Stratford Place, Oxford Street, London, W.1.

7953

UNIVERSITY COLLEGE OF SWANSEA

(A constituent College of the University of Wales)

PRINCIPAL: C. A. Edwards, D.Sc., F.R.S.

APPLIED SCIENCE DEPARTMENTS

Engineering

Professor: Frederic Bacon, M.A.(Cantab.), A.M.Inst.C.E., M.I.Mech.E., M.I.E.E.
Lecturer in Electrical Engineering: R. G. Isaacs, M.Sc. (Bristol), B.Sc.(Lond.), A.M.I.E.E.
Lecturer in Civil Engineering: A. A. Fordham, Ph.D. (Lond.), A.M.Inst.C.E., M.I.Struct.E.
Lecturer: J. Selwyn Caswell M.Sc.(Wales), A.M.I.Mech.E., A.M.Inst.C.E.
Assistant Lecturer: W. E. J. Farvis, B.Sc.(Bristol).

Metallurgy

Professor: C. A. Edwards, D.Sc.(Manchester), F.R.S.
Assistant Professor: R. Higgins, Ph.D.(Glasgow).
Lecturer: R. Griffiths, M.Sc.(Wales).
Assistant Lecturer: T. B. Wilkinson, Ph.D., B.Eng. (Liverpool).

The College offers a number of exceptional advantages to students who aim at entering upon professional careers in Engineering or in Metallurgy. It is situated in the heart of an industrial area which includes a large number of works of very varied character, and presents an unrivalled variety of metallurgical practice. The Manufacturers of the district, who contribute largely to the support of the College, give the Staff and Students of the Applied Science Department every access to the Works, and the Managers, Engineers and Technical Officials co-operate with the Staff of the College in making visits to Works of practical educational value to the students.

Courses of study are provided (1) for the B.Sc. Degree of the University of Wales in (a) Civil Engineering; (b) Mechanical Engineering; (c) Electrical Engineering; (d) Metallurgical Engineering; (e) Metallurgy; and (2) for Diplomas of the College in (a) Civil Engineering; (b) Mechanical Engineering; (c) Electrical Engineering; (d) Metallurgy.

Persons who are not desirous of studying for Degrees or Diplomas may attend selected College classes, provided they satisfy the authorities of the College that they are qualified to benefit by such classes.

Entrance Scholarships will be offered for competition in April, 1943.

Particulars concerning admission to the College, and of the Entrance Scholarships, may be obtained from the undersigned.

EDWIN DREW,
Registrar.

Singleton Park,
Swansea.

2198

UNIVERSITY OF SHEFFIELD

Department of Glass Technology

Instruction in Scientific Glass Blowing

THE School of Scientific Glass Blowing attached to the Department has been re-opened and students can be received for training in technique at any stage, elementary or advanced.

The accommodation is limited but vacancies are now available in courses of from one to six months duration. Fee £2 10s. per month. Preference of admission will be given to applicants associated with essential war work.

Applications should be addressed to Professor W. E. S. Turner, F.R.S., Department of Glass Technology, The University, Northumberland Road, Sheffield, 10.

W. M. GIBBONS, Registrar.

SAVE TO THE LAST INCH

With the Lincoln "T" Holder electrodes can be used right to the end of the coating, leaving smaller stub-ends and saving steel.

THE HOLDER **DOES** MATTER

The Lincoln "T" Type Holder is designed to increase the welding operators' efficiency. "T" Holders have these advantages :—

PERFECT BALANCE
QUICK IN ACTION FOR CHANGING ELECTRODES
COMFORTABLE HANDLE THAT KEEPS COOL
GRIPS THE ELECTRODE FIRMLY
LIGHT IN WEIGHT

Over 50,000 welders throughout the world use and appreciate Lincoln "T" Holders. So equip YOUR welders with Lincoln "T" Holders and help make their work easier—and speed up production.

"ST" HOLDER—The same designs, but lighter than the "T" Holder. Specially suitable for women welders and light work.

"HT" HOLDER—For heavy welding with large diameter electrodes.

The "T" Holder Bulletin is available on request

The "Fluxite Quins" at work

"It's a fine time for bathing, strikes me!
Come on! Back to work!" hollered EE;
"Keep your shirt on ole boy, it's that nit-wit, young OI;
Dropped the tin o' FLUXITE in the sea!"

For all SOLDERING work—you need FLUXITE—the paste flux—with which even dirty metals are soldered and "tinned." For the jointing of lead—without solder, and the "running" of white metal bearings—without "tinning" the bearing. It is suitable for ALL METALS—excepting ALUMINIUM—and can be used with safety on ELECTRICAL and other sensitive apparatus.

With FLUXITE joints can be "wiped" successfully that are *impossible by any other method.* Used for 30 years in Government works. OF ALL IRONMONGERS in tins—4d., 8d., 1/4 and 2/8.

Write for Leaflets on Case-Hardening Steel and Tempering Tools with FLUXITE, also on "Wiped" Joints.
